

# Chapter 1: Getting Started with D3

Start typing a name here...

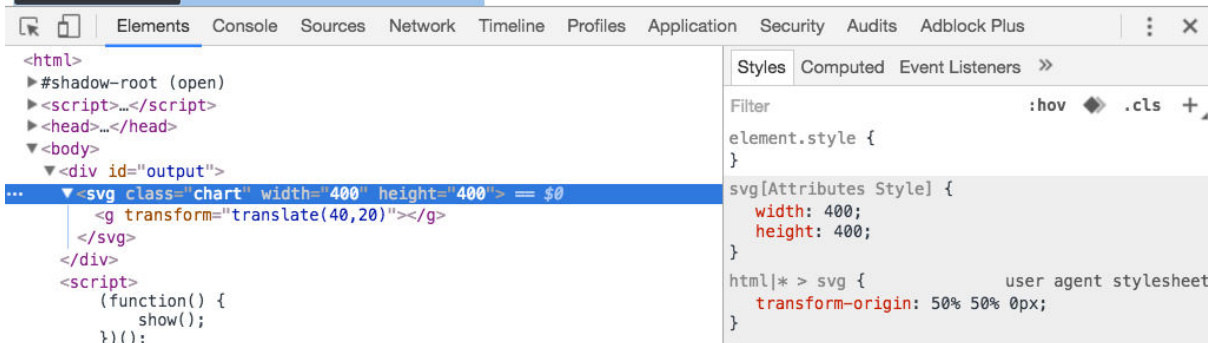

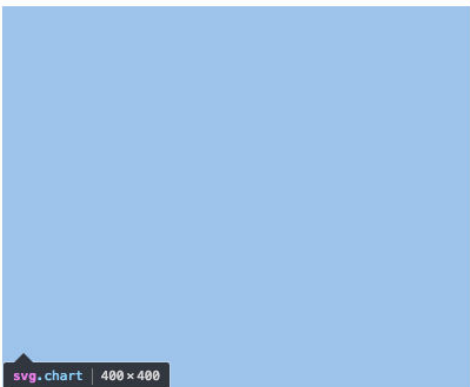

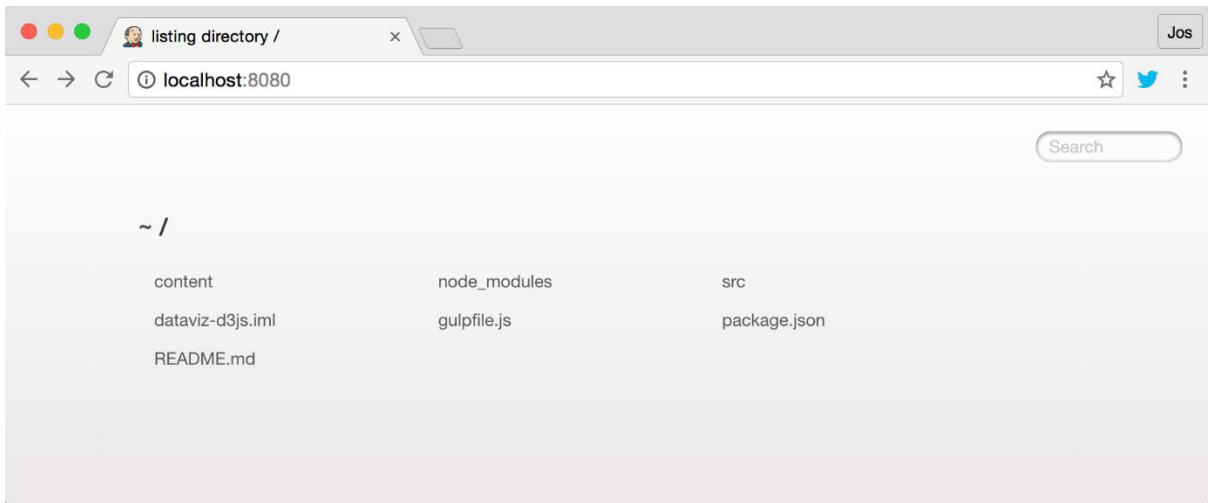

| Name    | 1996 rank | 2014 rank |
|---------|-----------|-----------|
| Oliver  | 23        | 1         |
| Amelia  | 63        | 1         |
| Jack    | 1         | 2         |
| Olivia  | 24        | 2         |
| Harry   | 17        | 3         |
| Isla    | 382       | 3         |
| Jacob   | 35        | 4         |
| Emily   | 4         | 4         |
| Charlie | 38        | 5         |

```
D01-01.js -- /Users/jos/dev/git/dataviz-d3js
gulpfile.js | D01-01.js
1  function show() {
2
3      var margin = {top: 20, right: 30, bottom: 130, left: 40},
4          width = 1860 - margin.left - margin.right,
5          height = 600 - margin.top - margin.bottom;
6
7      var chart = d3.select(".chart")
8          .attr("width", width + margin.left + margin.right)
9          .attr("height", height + margin.top + margin.bottom)
10         .append("g")
11         .attr("transform", "translate(" + margin.left + "," + margin.top + ")");
12
13     var formatDate = d3.timeFormat("%b %Y");
14
15     d3.csv("data/sample.csv", function(data) {
16         // we check for the existence of an svg element
17
18     });
19 }

## Chapter 2: Basic Charts and Shapes

# America's Entrepreneurs

## How Long Have America's Firms Been in Business?

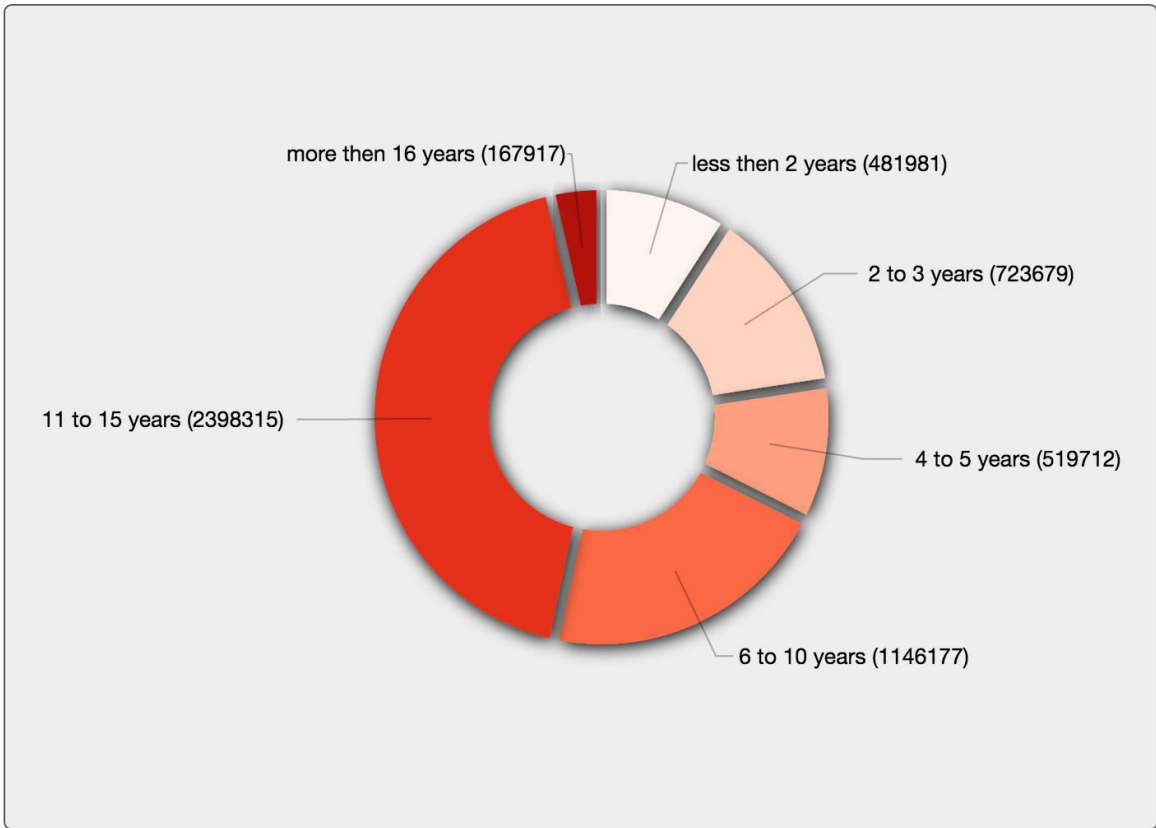

Note: The number of years a firm has been in business is determined by the first year that the Census Bureau received administrative records data for the business. This graphic does not show firms that are equally owned by men and women, veterans and nonveterans, minorities and nonminorities, nor Hispanic and Non-Hispanic. In some instances, percentages do not add to 100 due to rounding.

## Chapter 3: Working with Hierarchical Data

# The Tree of Life

This tree was generated by David M. Hillis, Derrick Zwickl, and Robin Gutell (University of Texas) based on an analysis of small subunit rRNA sequences obtained from about 3,000 species from throughout the Tree of Life. When possible, sequences were chosen so that the number of species included in a major group is roughly proportional to the number of known species in that group. The total number of species included is approximately the square-root of the number of species thought to exist on Earth.

# Chapter 4: Visualizing Graphs

## THE INCUMBENTS

The five major nominees for "Lincoln" have worked on at least 70 films with nominations. Kathleen Kennedy, a producer, has worked closely with Steven Spielberg since he gave Kennedy her first producer role, on "E.T. the Extra-Terrestrial."

Documentation
Documentation padding
[ this ] padding( [ number ] padding )
A convenience method for setting the inner and outer padding to the same
padding value.
Parameters:
padding - Value for inner and outer padding in [0, 1] interval.
nd().|
  domain()                               Domain[]
  domain(domain: Domain[])                this
  align()                                  number
  align(align: number)                    this
  bandwidth()                              number
  copy()                                    this
  padding()                                 number
  padding(padding: number)                 this
  paddingInner()                           number
  paddingInner(padding: number)            this

```
